Good Housekeeping 1999 good buy AWARDS

A New Generation of Electric Grills for Clean, Safe and Tasty Barbecue!

If you think electric grills produce a pale imitation of barbecue, the Electric Patio Caddie™ and Patio Bistro™ will change your mind. These innovative grills give you perfectly seared, tender and juicy grilled foods, time after time, all year long. You'll swear you're cooking with gas! And these grills are perfect for places that prohibit using charcoal or propane-gas models.

Revolutionary Insulation Reflects Heat Evenly

Electric Patio Caddie™ and Patio Bistro™ employ Thermsulate® technology to produce optimal grilling conditions. A patented, multi-layer aluminum liner in the base and lid reflects, insulates and conducts heat evenly, so it gets hotter than other plug-in models. Plus, the ceramic briquettes impart a charbroiled flavor. A temperature gauge in the hood tells you when the grill is hot enough for cooking. The result? A T-bone steak that tastes like it was seared over coals!

Good Housekeeping Names the Electric Patio Caddie™ Winner of the "Good Buy" Award for 1999!

Recognized for its exceptional performance, ingenious problem-solving features and ability to exceed customer expectations, the Electric Patio Caddie™ was named winner of the Good Buy Award from the Good Housekeeping Institute. Despite its compact size, GH Institute testers found that the Patio Caddie™ can grill a big batch of burgers or a small turkey with the same delicious results as that of a larger gas or charcoal grill.

Thermsulate® is a registered trademark of ATD Corp.

Quick Read Meat Thermometer with a Long Reach.

C. It's easy, in a few moments, to find out exactly how done your meat is — without ever getting your hands near the heat. With its 10" stainless steel probe, the EZ Reach™ thermometer keeps hands at a safe distance, yet gives a quick precise temperature reading of steaks, roasts, poultry, hams and more on its easy-to-read color-coded dial. A matching color chart on its handle gives you ideal cooking temperatures for rare, medium and well done meat, so you'll never over or undercook.

EZ Reach™ Thermometer #J7720001 $19.99

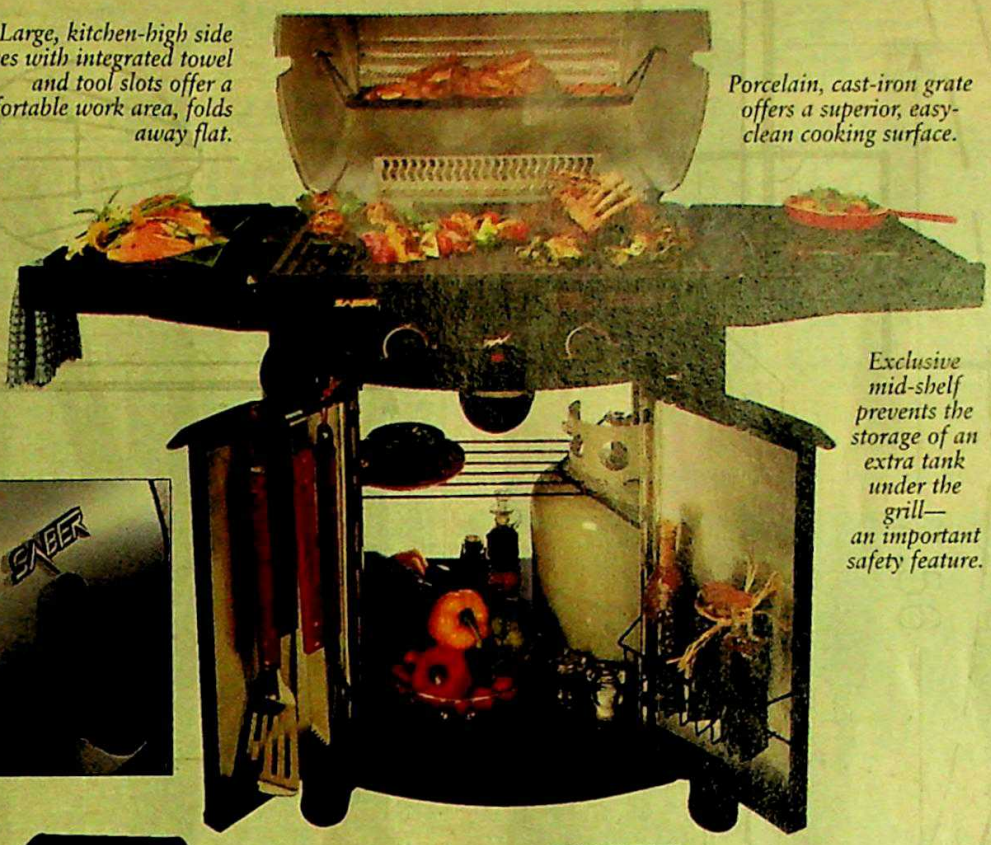
Corn Servers and Skewers

D. Freshly roasted corn is easy to serve and savor with these ceramic corn dishes and stainless steel cob skewers. Dishes are the perfect size to keep cob and butter in one delicious place. Microwave and dishwasher safe.

Set of 2 Corn Dishes and 4 Skewers #J7770013 $13.99

Large, kitchen-high side shelves with integrated towel and tool slots offer a comfortable work area, folds away flat.

Porcelain, cast-iron grate offers a superior, easy-clean cooking surface.



Exclusive mid-shelf prevents the storage of an extra tank under the grill— an important safety feature.

E

An under-grill cabinet stores tools, spices, oils, condiments and paper towels.

Porcelain hood insert resists rust, wipes clean and maintains its rich color. An elegant 11-gauge , heavy-duty post is weather-treated for long life.

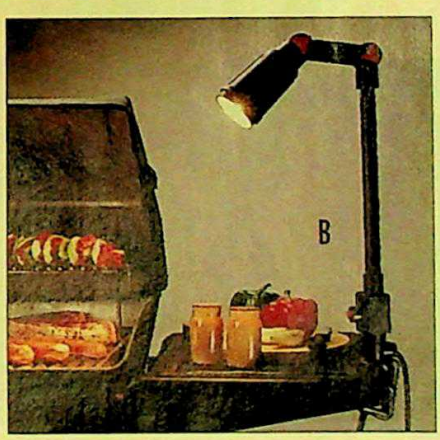
F

Saber Cart Grill has a removable cutting board that goes from grill to table, SureFire™ sideburner that ignites without misfires, and a HeatWave™ upper burner. Perfect for rotisserie cooking.

Outdoor Bar-B-Chek — the accurate way

A. Simply insert the probe deep into the center of a large roast or turkey, and press the button for 5 to 10 seconds. Instantly, from one to four bright, LED lights come on, rating the temperature from "rare" to "well done." Wipes clean. Measures 16¼"L.

Outdoor Bar-B-Chek #J7760035 $29.99



Halogen BBQ Light

B. Now you can grill late into the night — and still see your food clearly as it cooks. Expandable Over the Sink Colander

C. The beauty of this kitchen marvel is four-fold: It catches all the food drained from big pots; it doesn't tip over in the sink; it sits at the same level as the cutting board, so you can prepare and rinse ingredients just by scooting them into the colander with your knife; and it fits all sinks! The Over the Sink Colander expands from 14" to 22"; the professional gauge, fine stainless steel mesh basket is a generous 13" x 9". Rubber feet protect the sink and prevent slipping. A great idea for any home cook.

Lighted Electronic Peppermill Lets You See Exactly How Much Pepper Touches Your Food

A. Ground fresh pepper can turn a simple meal into a taste treat, but sometimes it's hard to see exactly how much pepper you're putting on your food. This sleek chrome peppermill with stainless steel grinder has a built-in, high-intensity beam that sheds light on the whole spicing process, giving you control over the amount of pepper on salads, meats and more. No more over-spiced meals! The mill is fully adjustable from fine to coarse grind, and a built-in rotating paddle keeps peppercorns moving evenly into the grinder to prevent stalling. Peppercorns and spare light bulb included. Uses four AA batteries, not included. 8½"H x 2" diameter.

Automatic Peppermill with Light #J7790177 $39.99

Combination Cooking Timer/Thermometer

B. Here's an easy way to know when your meat's internal temperature has reached the perfect level — without opening your oven door. Insert the probe into meat when you begin cooking, and pre-set the desired temperature from 32° to 392°F. A digital readout and loud, five-minute alarm sounds when the inner temperature has been met. Separate timer can also be used at the same time as the thermometer. Includes a memory feature for frequently used settings. Probe and wire measure 3 ft.; display is 3" square.

Cooking Timer/Thermometer #J7760011 $29.99

Charcoal and Electric H_2O Smokers Create Succulent Meats

Slow-cooked food from a real water smoker tastes divine. The steam penetrates deeply into ham, turkey, fish and briskets for big smoky flavor, and the most tender, moist meats imaginable. Char-Broil offers two smoking methods, both guaranteed to provide perfect, mouth-watering results. Charcoal smokers have a front-loading door and top-mounted temperature gauge. Electric smokers have a 1650-watt thermostatic control heating element. All have adjustable racks to hold up to 50 lbs. of food, so you can smoke a turkey and a ham at the same time. Large reservoirs hold 6 quarts of water to reduce refilling time. All are easy to use and come with complete instructions. Smoker covers are available, see below.

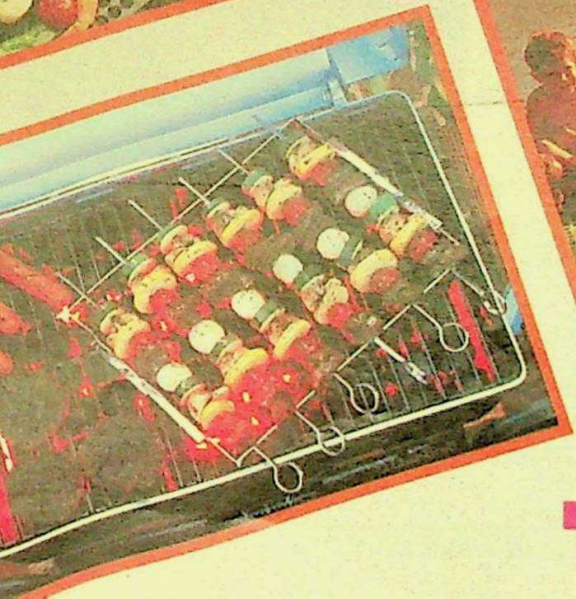
Grill Lovers Grill Book



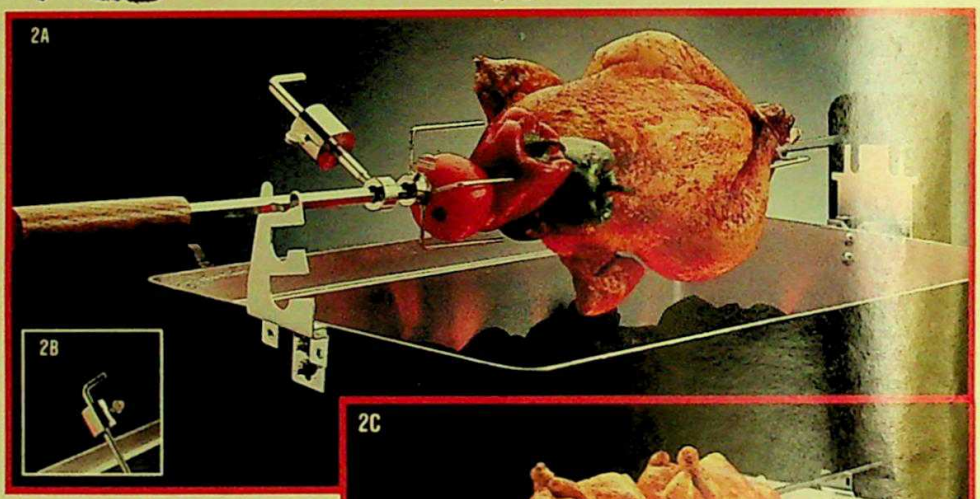
A CATALOG OF ACCESSORIES FOR YOUR GRILL

My Summer Survival Shopping List . . .

Seven items without which you'll have a miserable summer. Seriously, of our dozens of accessories, these are the basics:

1. Good Tools, page 6. . . they'll last longer.
2. Grill Cover, page 30. . . a small price to protect an important appliance.
3. Gourmet Grill, pages 6 and 23. . . you need to start eating healthier fish and vegetables.
4. Cookbook, see back cover and order form. . . would you start a trip without a map?
5. Grill Baskets, pages 10, 22, 23.
6. Rotisserie. . . impressive and delicious.
7. Smoker. . . you'll need it for 4th of July ribs.

Steve Butler, Chairman



Get consistently delicious results with a CHAR-BROIL ROTISSERIE. While you relax — roasts, poultry and game birds cook evenly, brown beautifully and self-baste. The constant rotation keeps those precious juices in the bird or roast to give you succulent flavor.

2A. DELUXE MODEL ROTISSERIE with all attachments. Features a stay cool wood handle and two-piece breakdown spit rod. Cleans and stores easily. 4 prong spit forks securely hold food and height adjuster allows variable cooking levels. Set includes spit balance. Works with batteries or household current. (For CB 860 and 940, See 3D.)
4184755 . . . . . $36.95

2B. SPIT BALANCE, prolongs the life of the rotisserie. Uneven weight distribution on the spit can strain and reduce motor life. Counterbalance allows the spit to turn freely whether you're cooking Cornish hens or a 20 lb. turkey.
4184745 . . . . . $6.95

2C. STANDARD ROTISSERIE KIT. This motor is identical to the professional model motor, but includes 2 double-pronged and standard mounting brackets.
4184756 . . . . . $29.95
4584754 (Fits Char-Broil 860 and 940; uses household current only) $34.95

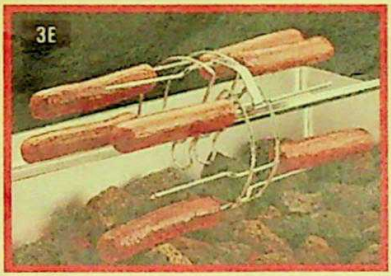
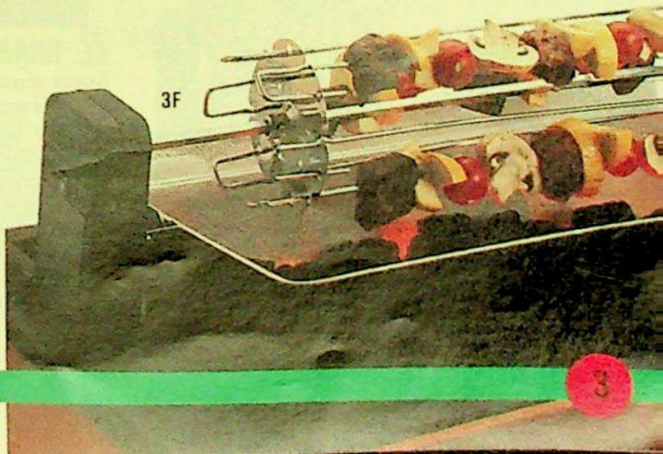
HOT DEAL!

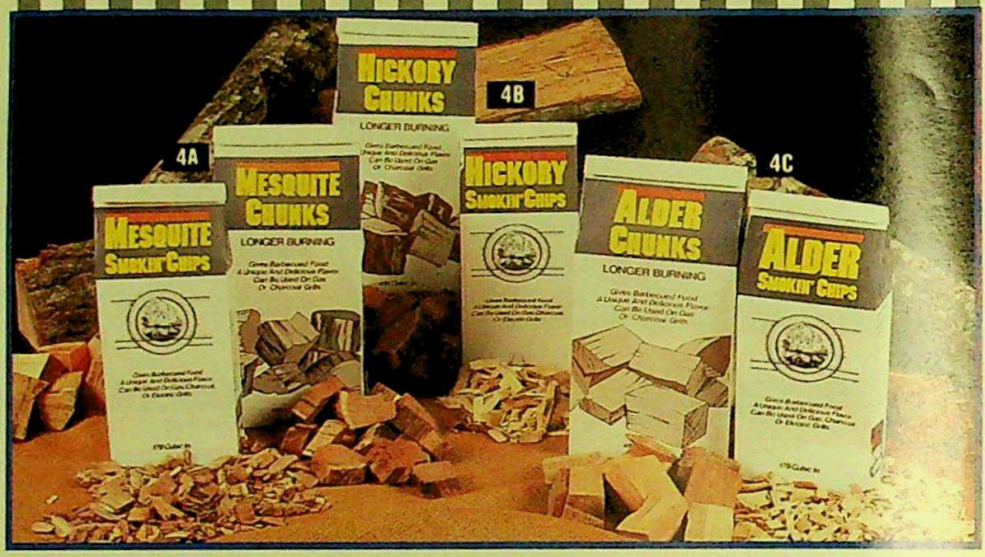


3D. 4-PRONG SPIT FORKS. Hold food securely on spit rod. Chrome plated for easy clean-up.
4184746.....$4.95

3E. HOT DOG/SAUSAGE WHEEL. No turning or burning as metal skewers hold meat in place and act as internal heating elements. Holds up to 10 pieces.
7546050.....$9.95



3F. KABOB WHEEL. Ideal for "no fuss" grilling of shish kabobs. Kit comes complete with 6 detachable skewers.
4184734.....$11.45



4A. MESQUITE CHIPS AND CHUNKS. Smoking with mesquite is a passion in America's Southwestern region. The fiery, long burning coals impart a sweet smoky flavor to steaks and seafood. Used dry, mesquite is known for its unmistakable snap and crackle. **4184762 (2-lb. Bag Mesquite Chips).....$4.95**
4184767 (5-lb. Bag Mesquite Chunks)...$7.95

4B. HICKORY CHIPS AND CHUNKS. The "Authentic" barbecuing wood. Hickory is the aromatic wood most favored by discriminating chefs. Great for ribs or pork.
4184761 (2-lb. Bag Hickory Chips).....$4.95
4184766 (5-lb. Bag Hickory Chunks)....$7.95

4C. ALDER CHIPS AND CHUNKS. The delicious, subtle flavor of Alder offers a unique and pleasurable change of pace. Great with fish and poultry.

7184768 (7½-lb. Bag Alder Chunks).....$7.95

4D. JACK DANIEL'S BARREL CHIPS. Imagine the look on your friend's face when you let him know that the wonderful aroma he smells is bourbon and aged hardwood from authentic 25-year-old Jack Daniel's Barrels. 2-lb. bag.
7527025.....$6.95

4E. GRAPEVINE CUTTINGS... a unique flavor sensation. Grapevine cuttings add a lightly sweet, earthy flavor to game, poultry, and fish, according to barbecue expert Philip Stephen Schultz, author of Cooking with Fire and Smoke, (Simon & Schuster). Use dry for a hot smoky fire to lend a strong flavor to quickly cooked meats or fish. This somewhat nutty and fruity flavor enhances food without added calories. These vines are select vinifera grape cuttings from the vineyards of Long Island's North Fork. **7527026.....$6.95**

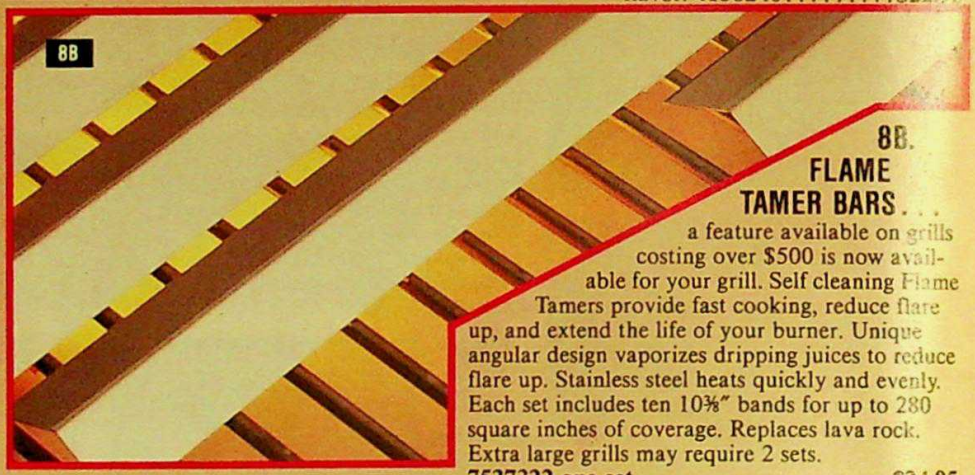
Radiants

8A. Replace old lava rock and rock grate with the ALL-IN-ONE CHAR-GRATE.
Constructed of the same material as our CharDiamonds. Molded in one piece and fitted with "outriggers" to expand to fit rock grates from 11" X 17" to 14" X 21". And unlike lava rock, the CHAR-GRATE is not porous and does not absorb juices and grease — it burns off immediately causing less problem flare-up. Vaporized juices naturally smoke foods for genuine Char-Broil flavor. **4156240**.....$22.95



8B. FLAME TAMER BARS... a feature available on grills costing over $500 is now available for your grill. Self cleaning Flame Tamers provide fast cooking, reduce flare up, and extend the life of your burner. Unique angular design vaporizes dripping juices to reduce flare up. Stainless steel heats quickly and evenly. Each set includes ten 10⅜" bands for up to 280 square inches of coverage. Replaces lava rock. Extra large grills may require 2 sets.
7527322 one set.....$24.95
7527332 two sets.....$39.95

8C. REVOLUTIONARY NEW CHARCOAL BRIQUETS FOR YOUR GAS GRILL. Now, you can grill foods with *real* charcoal flavor on your gas grill! Made of 100% charcoal and designed to burn slowly over the flame of your gas grill, new Charcoal Briquets are available in regular or mesquite flavors that last up to 10 cooking hours...and they are so easy to use, too! A color change from black to tan, as with ordinary self-burning charcoal, signals the need to add new briquets to refresh the flavor...and these remarkable briquets keep their shape when expended and may remain in your grill as a permanent radiant.
4184775 6-lb. bag mesquite $9.95
4184773..6-lb. bag regular..$9.95
Two or more bags $7.95 each bag

After use, simply discard or retain in your grill as a permanent radiant.

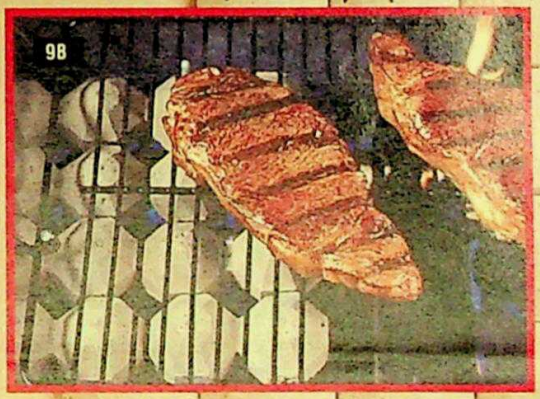
9A. More Smoke! More Flavor! Less Flare Up! The ULTIMATE RADIANT SYSTEM. The best design we've seen for those who want more real barbecue smoked flavor, plus flare control. The unique pattern slowly vaporizes juices associated with problem flare-ups. Cast aluminum SMOKER PLATES heat quickly and evenly. Built to be the last radiant you will ever buy. Set of 2 11" x 13" plates with a unique break-to-size feature fit most gas grills. Replaces lava rock.
7536224 . . . . . $49.95

9B. CHAR-DIAMONDS REDUCE FLAME-UP WHILE DELIVERING GENUINE CHAR-BROIL FLAVOR. Unlike lava rocks, CHAR-DIAMONDS aren't porous and don't absorb grease. . . they burn off immediately causing less flare up. Because of their uniform size. Diamonds get hotter, retain heat longer and distribute heat more evenly. Best of all, Diamonds vaporize meat juices for great Char-Broil flavor. (Will not fit electric grills.) **4159246 . . . . . $14.95**



9C. LAVA ROCK. Heated rocks vaporize meat's juices to produce authentic charcoal flavor.
4159149 (4-lb. Pack Small Rock for Table-top Gas and Electric Grills) $7.95
4159146 (4-lb. Pack for Gas Grills with up to 13"x19" cooking surface) $7.95

Seasonings & Sauces

14A

14A. It's no secret that the best barbecue (and sauce) is found in back road, back alley, hole-in-the-wall joints. This sauce is our tribute to these all-American establishments. It bears no resemblance to the feeble, tamed sauce that you find on supermarket shelves. All versions start with a mustard base, but the other ingredients are a closely guarded national secret. Sop it on ribs, barbecued pork, chicken, even on shrimp. Those with a fragile constitution will prefer the Mild. The more adventurous should try the Hot or Red Hot (also a reliable "decongestant"). **7546194 Set of 3 (1 ea.) 16 oz. bottles. . .$7.95; 7524680 Hot 32 oz. . . .$3.95; 7524679 Mild 1 gal. . . .$9.95**

14B. CAUTION: Extremely Hot Country's Backfire Barbecue Sauce. When the owner of Country's Barbecue Restaurant developed this super hot sauce, he kept it in the kitchen because he was afraid to set it on the tables. Now you and your guests can enjoy this "super hot" sauce at backyard barbecues.

14D. BLUE CRAB SEAFOOD MARINADE. A whisper of sage, a pinch of dill, a hint of rare horseradish mustard, and a host of other mysterious ingredients combine to make this the best seafood marinade we've ever tasted. Elegantly packaged, perfect for gift giving. 12½ oz.
7527169. . . $9.95

14C. Your guests will sing your praises when you use WAYLON JENNINGS' WEST TEXAS STYLE SAUCE. Waylon and his wife, Jessi, describe it as an authentic "Good Ole Boy" sauce meaning it's just plain good. So well-seasoned that it's perfect for pork, beef and chicken. Use it as a basting sauce while grilling. Also an excellent marinade. 19 oz.

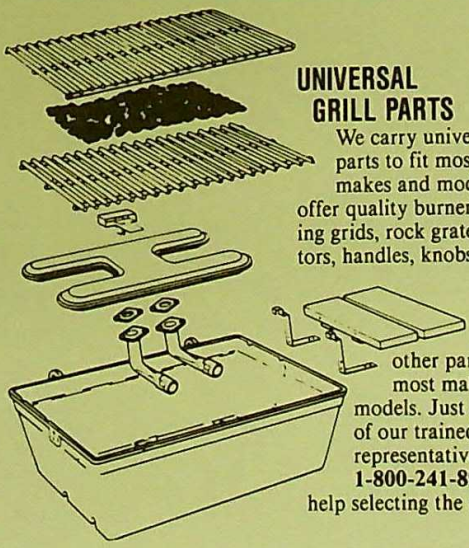
From the World's First Ice Machine - to the Char-Broil Grill...

Over the last 105 years, we've made everything from plow shares, to the world's first ice machine, to wood stoves. In 1949, we produced our first charcoal barbeque grill under the Char-Broil name. Then in 1966, we produced the first Char-Broil cast aluminum gas grill, the forefather to the grills offered in this catalog. Then and today Char-Broil is a leader in the grill manufacturing industry worldwide. Our company has been through a lot of change over the years, but some things remain the same. We produce good products and deal with our customers fairly and honestly. It's just that simple!



UNIVERSAL GRILL PARTS

We carry universal grill parts to fit most gas grill makes and models. We offer quality burners, cooking grids, rock grates, ignitors, handles, knobs, and other parts to fit most makes and models. Just call one of our trained sales representatives at **1-800-241-8981** for help selecting the right parts

OUR GUARANTEE

For over 100 years we have offered quality items and service to our customers. If you are not completely satisfied with any of our products, we will gladly exchange, or refund your purchase price. You may return the item via UPS or US Mail (Insured) or call 1-404-324-5617 for specific information and instructions.

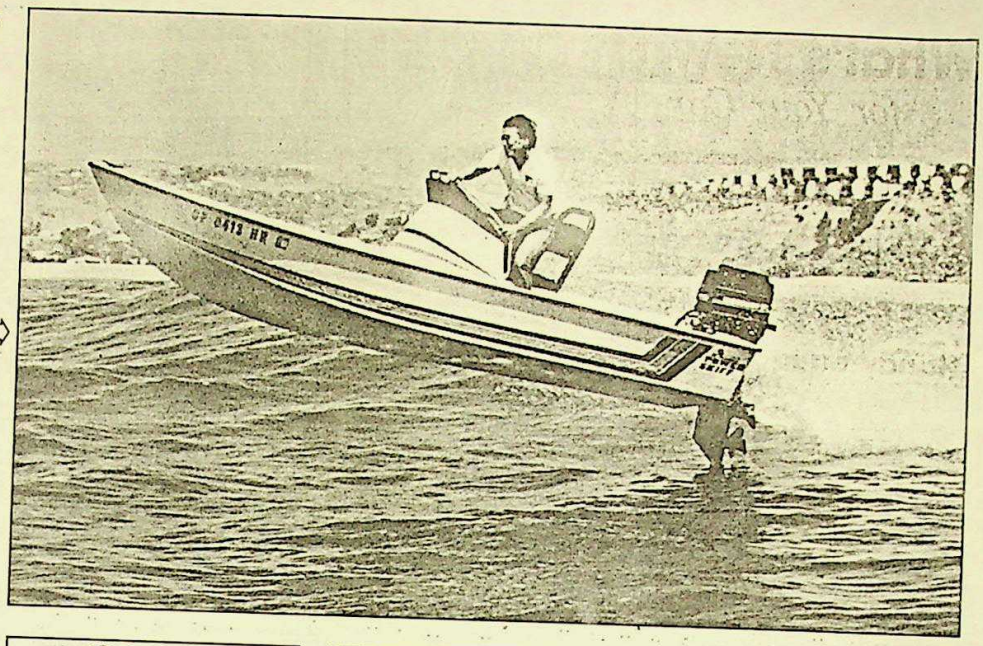
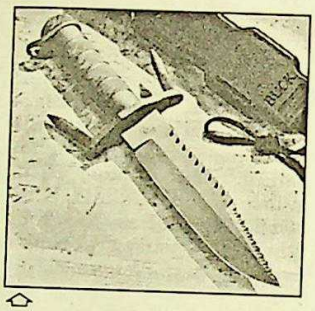
What's New
in Recreation

BY SUSAN RENNER-SMITH



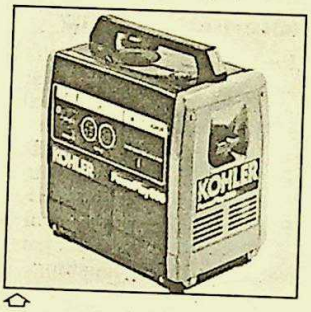
Powerboat

The Hobie Skiff has a fiberglass-foam sandwich hull, as does the swift-sailing Hobie Cat 18. Ralph Edwards, their designer, first built the 15-ft. 385-lb. skiff for himself. The $4,195 craft performs well with a 20-hp motor, says Hobie Power (Box 1008, Oceanside, Calif. 92054).



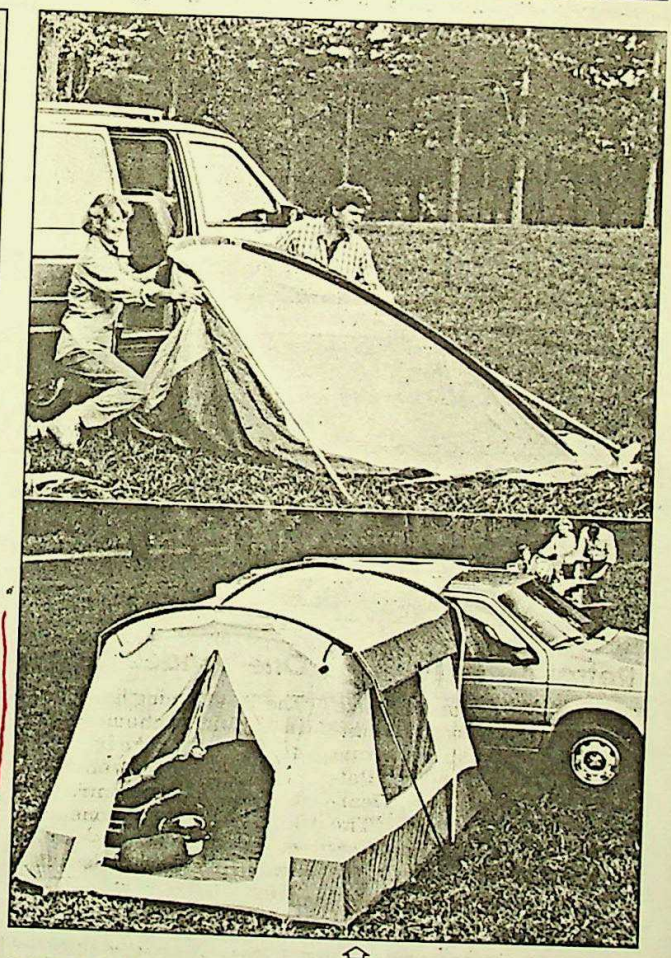
Wilderness knife

Forced to scramble up a cliff in a hurry? Anchors in the BuckMaster's handle let you use the 12½-in.-long knife as an emergency piton. One serration on the blade's back saws wood or metal; the other severs rope. Maker: Buck Knives (Box 1267, El Cajon, Calif. 92022). $155.



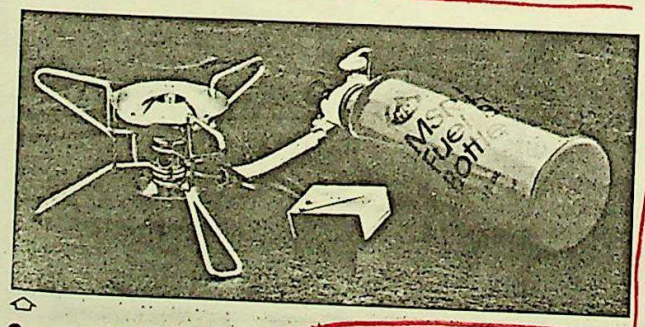
Portable power

For easy starting, the PowerPlay 800 has solid-state ignition. For quick monitoring, it has an oil-warning light and fuel gauge. The 51-lb. generator can produce a maximum of 800 W, yet its four-cycle engine has a low noise level, says Kohler Co. (Kohler, Wis. 53044). It's $499.



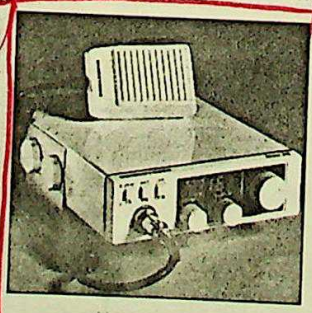
Free tent

This eight-by-10-ft. tent turns a Plymouth Voyager into a camper, sleeping four to six in the tent and two on a convertible bench seat. The $500 tent is free with the $1,337 Magic Camper Package from Chrysler dealers, including seat, luggage rack and locker, battery, and fuel tank.



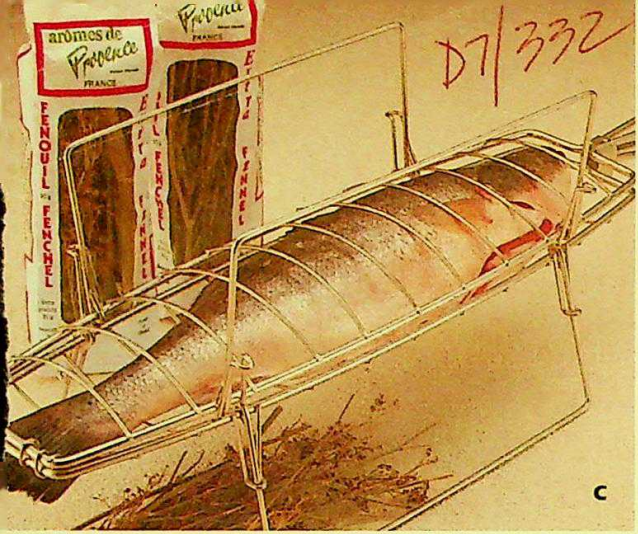
Speedy stove

Want a quick cup of coffee after a long day's hike? The WhisperLite camp stove boils a quart of water in four min., says MSR (Box 3978, Terminal Station, Seattle, Wash. 98124). The $40 folding stove weighs just 12 oz. and boils 30 qt. of water using one pt. of white gasoline.



Midget radio

The Mini 33 Marine Radio measures 6⅛ by 1⅞ in.—small enough to mount in even the most cramped boat. Full front-panel controls receive and transmit on 25 VHF and five weather channels. Price: $349. Maker: Uniden, 15161 Triton Lane, Huntington Beach, Calif. 92649.



F Efficiently angled **Long Handled Basting Brushes** of sterilized boar bristles make basting charbroiled, baked or roasted foods an easy task. Brush widths are ¾", 1½", and 2¼", on 12"-14" handles. From Italy. Set of three

B Italian molded **Glass Ice Pitcher** keeps drinks cold without risk of dilution from melting ice cubes. Ice is placed in a plastic-lidded container that fits neatly inside the jug. Good-looking yet reasonable in price, it is ideal for kir, sangria, wine coolers, tea or fruit juices. 1½ qt. cap.
#40-00125 $6.00

C Super quality, dishwasher safe **Toucan Steak Knives** from France have sharp serrated stainless steel blades and *faux* mahogany handles secured with polished brass rivets. Brass ends are shaped like a toucan's beak. 5" blade with 4" handle.
Set of six #40-62026 $36.00

D Exceptionally attractive but very inexpensive **Centrifuge Glass Bowls** come from Hungary. Formed in a metal mold that spins at high speed, the molten glass flows up the sides of the mold to form the reeded pattern and scalloped rim. It's an unusual technique that is seldom used today. Use these bowls for salads, fruit compotes or cold summer soups.

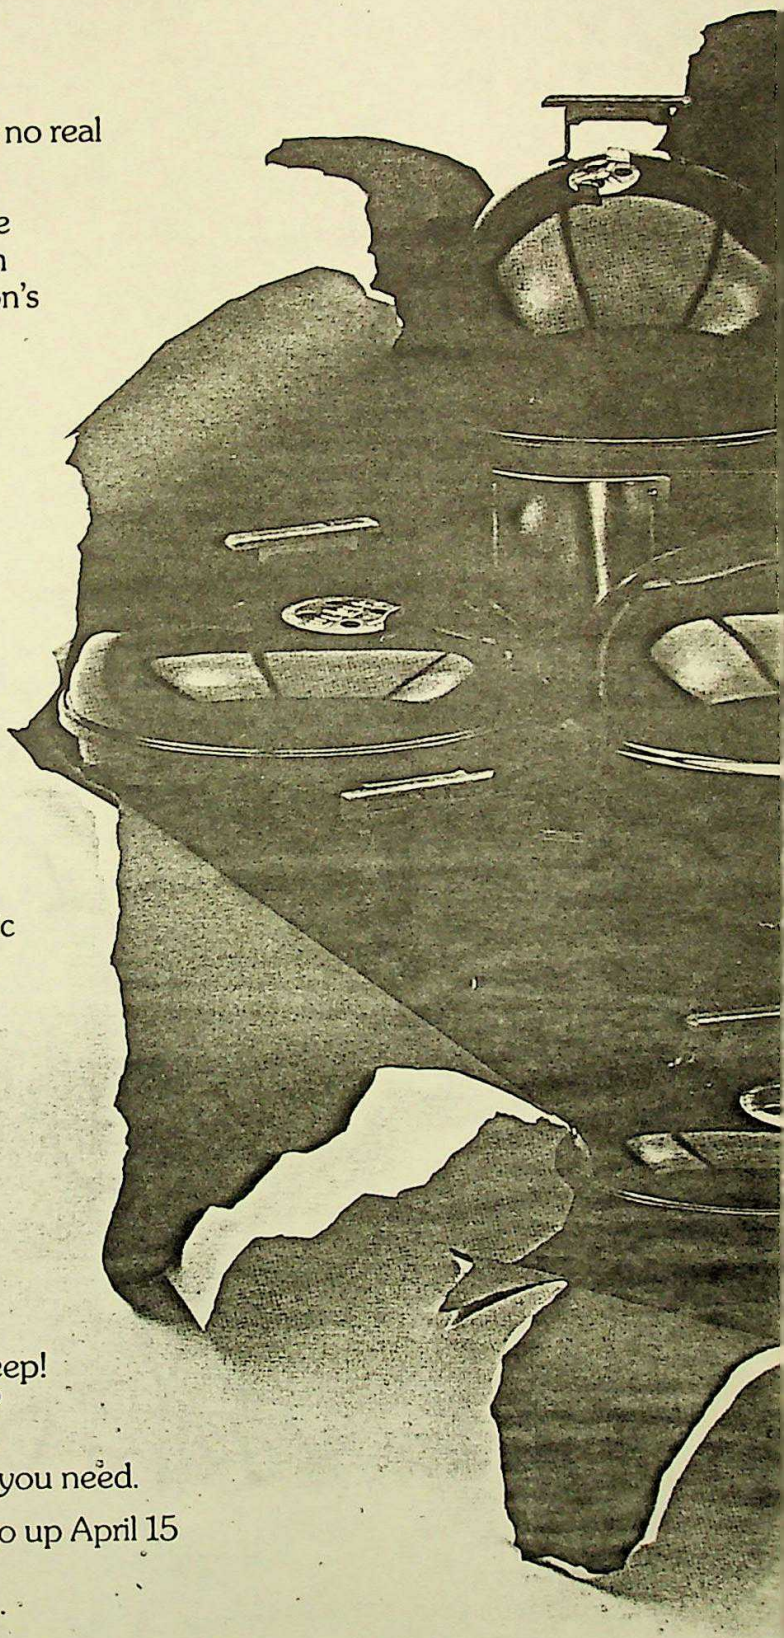
In 1984, Weber breaks through the myths about barbeque grill sales.

8/1984 - published

weber®

#1 and that's a fact.™

Weber breaks through with the cold facts you need for red-hot barbeque profits.



MYTH: "When it comes to barbeques, there's no real brand awareness."

FACT: For years, we've outspent the rest of the barbeque industry *combined* to plant our name in your customers' minds. Today, Weber is the nation's *number one* barbeque brand... the *only* brand many of your customers know. And in 1984, we'll be spending more than ever to make sure your customers ask for Weber—*by name!*

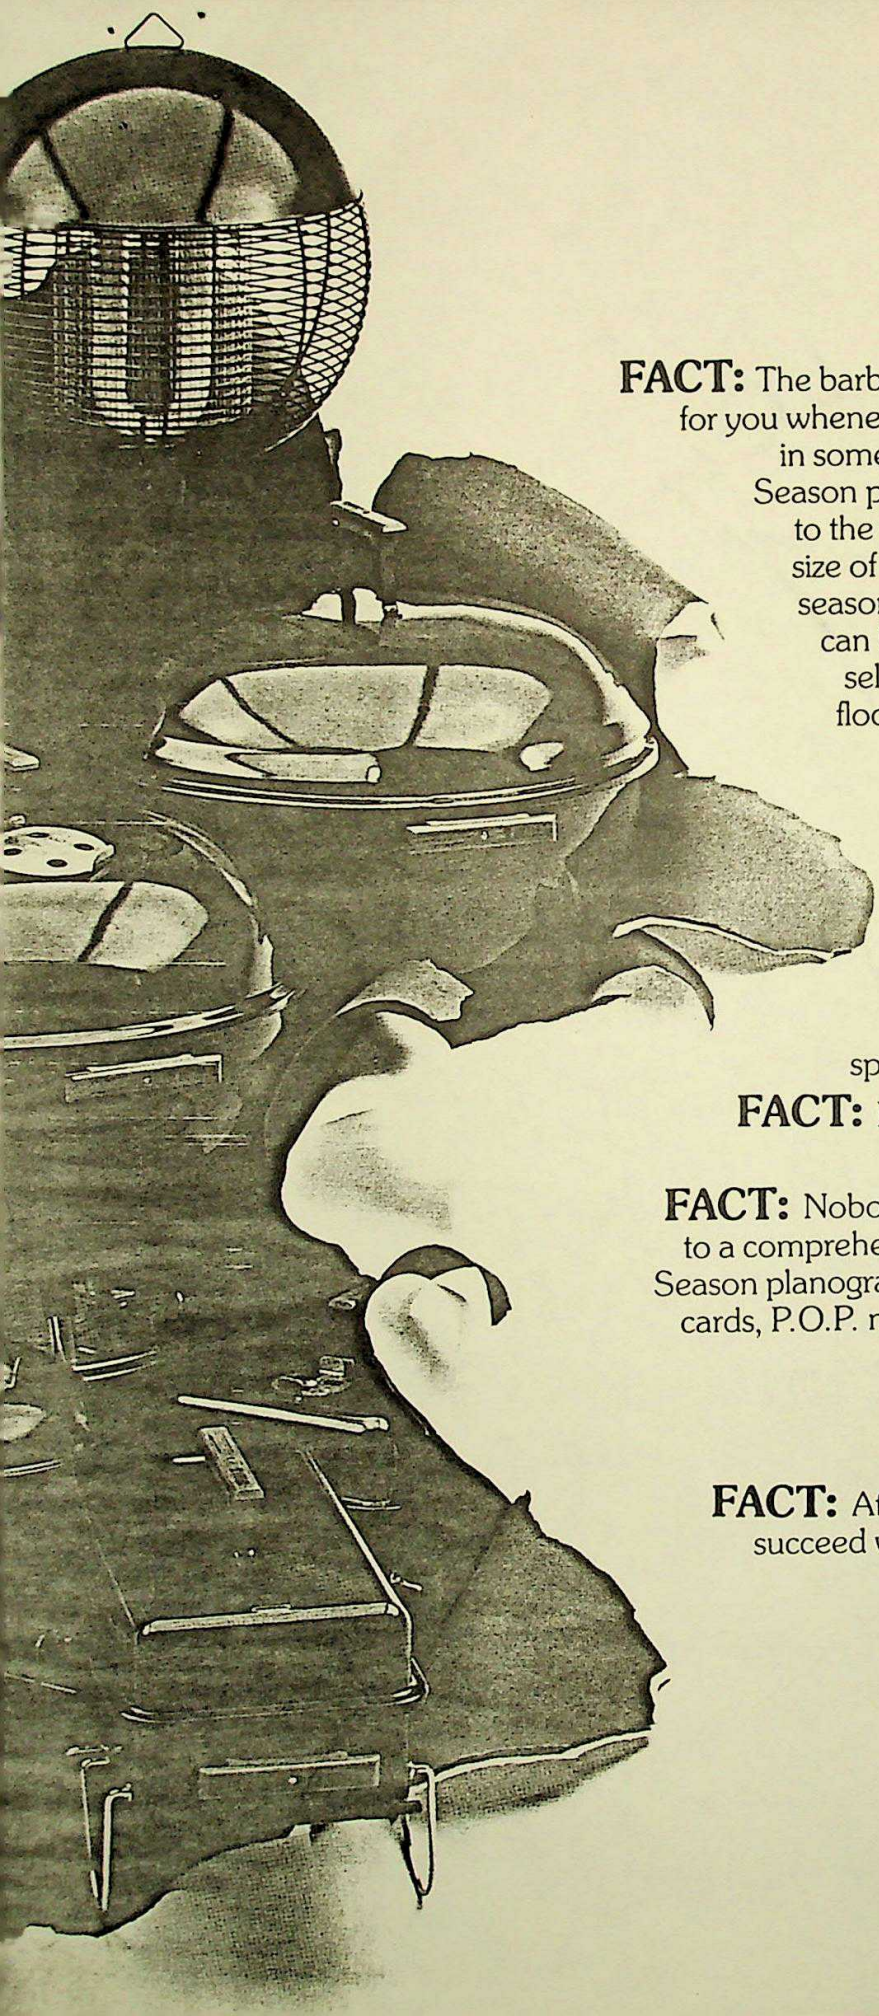
MYTH: "You can't make profits in the barbeque department."

FACT: You can if you merchandise the Weber Dynamic Season™ program. You can't expect to make money with just one or two SKU's—*step-up and add-on sales* are the key to barbeque profits. Many of your customers will trade up to Weber's extra-value colors or Weber Gas Kettles—*if* you display them. And every Weber owner is an instant candidate for our high-margin accessories or the top-of-the-line The Web® electric bug killers, too. Your Weber Representative can help you put together the right planogram for your needs. Just ask!

MYTH: "The best approach to barbeques is to keep your inventory low."

FACT: That's the best way we know to *lose sales.* No dealer gets stuck with leftover Weber inventory—our complete support program, including a month-long network TV blitz, takes care of that. In fact, many dealers are out of stock and out of luck by Memorial Day! Order deep! Not sure how much Weber stock you can move? Ask your Weber Representatives. They have the Dynamic Season planograms... and all the help you need.

MYTH: "The barbeque department should go up April 15 and come down July 5."



FACT: The barbeque department should be making money for you whenever your customers are cooking outdoors—in some areas, that's year-round! Weber's Dynamic Season planograms adjust the *size* of the department to the time of year, region of the country, type and size of store... they even account for the mosquito season for The Web bug killers. Your Weber Reps can help you with a complete, month-by-month selling plan that tells you when to expand your floor space, when to contract it, what merchandise to feature, and when to promote. Ask!

FACT: Weber works in just about every kind of store you can think of. "go-anywhere" grills

Go-Anywhere Grills: the faste

Good things come in small, portable packages . . . and the Weber "Go-Anywhere" grills are just that.

The "Go-Anywhere" grills make the best of company for family picnics and travel needs.

Smokey Joe—14-1/2 in. diameter, 17-1/2 in. high kettle. The fast-selling Smokey Joe now has an improved, bright-finished ash catcher and legs to make it more durable and rust-resistant than ever! Big enough for small roasts, small enough for camping and picnic portability, the Smokey Joe has removable legs, porcelain finish inside and out, and a triple nickel-plated cooking grill. 5-year limited warranty.

weber one-touch™ System

If you really want traffic, feature the name people know.

The original Weber Kettle that is synonomous with quality, and the only barbeque kettle people ask for by name, has been perfected.

Move the "One-Touch" lever back and forth and it opens and closes all three vents. As an added benefit, it sweeps out any accumulated ashes. No need to hand-scoop, no turning kettle upside down, no lifting grills out... no more mess. What a selling point!

And only Weber Barbeque Kettles have the patented One-Touch system —there's no other like it.

But this unique One-Touch feature is only the finishing touch on what is already a legend.

No other product cooks like, lasts like, or delivers customer satisfaction like the one... the only... brand name in the business.

A. Weather-resistant, heat-resistant handles.

B. Close the top vent (and the One-Touch system) when cooking's done to extinguish the fire, and save charcoal for the next time!

C. Weber's original covered design reflects and circulates the heat evenly. Foods cook evenly, perfectly—no ruined meals!

D. Sturdy, heat-resistant wooden handles.

E. Heavy-gauge cooking grill. Triple plated. Now with curved handgrips that hang on Kettle handle.

F. Heavy-Gauge Steel Kettle—not painted but sealed inside and out with clean, colorful porcelain-enamel that won't rust, burn or stain. And Weber stands behind the *5-year limited warranty* with a history of satisfied customers!

G. Durable charcoal grill.

H. Patented leg coupling. (Patent #3538906.) No thumbscrews or bolts needed.

I. All new One-Touch system cleans out accumulated ashes with one easy sweep. No scooping... no mess. (See illustration.)

J. Ash catcher is outside the kettle for unobstructed air flow, easy ash disposal. It's more rigid than ever, and has ash catcher clips so it won't blow away!

K. Rugged unbreakable wheels. Crackproof to −40°F, built to last a lifetime.

L. No-rust aluminum legs.

M. Strong nickel-plated bottom brace is a handy shelf, too!

Barbeque cookbook with dozens of recipes and directions. It's a full-color P.O.P. hangtag, too, attached to every kettle, that identifies... and sells... genuine Weber!

Indirect cooking method.
Drip pan goes under turkeys, hams, thick cuts, roasts; charcoal goes on either side. Move the One-Touch lever to open and Weber's air flow system creates *natural convection* for faster cooking... and juicier meats than you could ever get in a conventional oven.

Direct cooking method.
Place burgers, steaks, chops right over a single layer of coals. Covered cooking seals in natural juice flavor; prevents flare-ups and burning.

New! Mesquite, Hickory and Oak WeberChunks™

A smoky, tangy trio... for new flavor adventures.

Bring a touch of the gourmet to your outdoor cooking. Today, people everywhere are discovering the subtle flavors imparted to foods by authentic WeberChunks. Just add a few to the charcoal, and spice up the menu.

Mesquite WeberChunks lend a perfect note to steaks and chops. Oak has a unique aroma that delightfully flavors anything. Hickory is a third "spice" to choose from.

All three kinds are easy to light and packaged complete with recipes.

Smokey Mountain Cookers. The most expensive smokers on the market—and worth it!

Smoking foods is an increasingly popular way for outdoor cooks to add a new flavor dimension to foods.

And there are no better built smokers available than the one that carries our Weber name—the Smokey Mountain Cookers.

The large capacity smokers are constructed of first-quality materials. So they're built better to last and last.

The heavy-gauge steel unit is lined inside and out with black porcelain finish that will not burn, stain or rust.

A solid wood handle, nickel-plated grills and a porcelain protected water pan are other fine features of the product. The Smokey Mountain Cookers can be adapted for roasting, steaming and barbequing, too.

Backed with our 5-year limited warranty, it's a sure bet our Smokey Mountain Cookers are the most durable smokers available.

weber gas kettles

Exclusive Weber state-of-the-art features make these easy to buy...easy to sell.

Weber Gas Kettles provide maximum convenience for leisure time barbequing. The push-button ignitor lights gas quickly.

The added plus is the Weber Gas Kettles' exclusive patented, *movable* stainless steel burner for Direct and Indirect cooking. No ordinary gas kettle has one like it.

The unique Weber covered design allows the heat to circulate around the food on all sides, for perfect results every time.

Constructed of the finest materials, Weber Gas Kettles are made of heavy-gauge steel and coated with porcelain-enamel for a finish that won't burn, rust or stain.

A. Weather-resistant, heat-resistant solid wood handle.

B. Weber's covered cooking circulates the heat, locking in natural juices for perfect results every time. Great outdoor flavor . . . with no burning! There's *no* rotisserie needed, and *no* electric cord . . . the kettle is round, so you rotate the heat.

C. Heavy-Gauge Steel Kettle—not painted, but sealed inside and out with clean, colorful porcelain-enamel that won't rust, burn or stain.

D. Nickel-plated cooking grill—397 square inches of cooking area!

Several passed there, but none ever reached the House floor—all because of opposition from occupants of the district seat. There was general statewide support for the Irish Wilderness, polls and editorials showed, and both of Missouri's senators (Republican and Democratic) and most of its congressional delegation were for it. Some way had to be found to put that consensus to work effectively.

In early 1976 the Missouri Wilderness Coalition, made up of all the major conservation organizations in the state, was organized. The all-volunteer coalition began its work under the leadership of Dan Pierce (of Friends of the Earth) and John Karel. On October 9, President Ford signed legislation designating two new Missouri wilderness areas, 13,500-acre Hercules Glades and 8,000-acre Mingo Swamp, and four wilderness study areas. But that bill never included the Irish. Through the following three years or so the coalition used the massive RARE II program as the catalyst for its various wilderness proposals, including the Irish.

Then, in 1980, Greg Iffrig entered the scene. That year four areas recommended for wilderness during RARE II became wilderness areas: Piney Creek, Bell Mountain, Rockpile Mountain, and Devil's Backbone. The Coalition decided it was time to fight. Since winning the support of the local congressman was deemed hopeless, the Coalition would tackle getting the bill passed over his objection. John, Greg, and the Ozark Chapter took the lead in organizing the statewide supporters of wilderness into an effective political force to secure protection for the Irish. The affiliate list was expanded to include churches, businesses, and outdoor clubs as well as conservation groups. Soon the Ancient Order of Hibernians was added because of its interest in Irish history.

In December 1981 the state's two senators introduced two wilderness bills, one for the Irish and the other for Paddy Creek, some miles northwest. By early 1982 the Missouri Wilderness Coalition had begun a communications program to keep key political leaders and the press informed. Special information packages were sent to members of Congress. Later, as legislation progressed, John and Greg would issue update memoranda to some 350 of Missouri's activist conservationists, detailing the positions of each of the state's 10 representatives and making note of who said what at hearings and of actions that needed to be taken.

The Irish Wilderness campaign took another two years to win. The Missouri Wilderness Coalition was what made the difference—and, as John Karel hastens to point out, the driving force behind that campaign was the Sierra Club. (Karel calls the Club's Ozark Chapter the coalition's "cut-

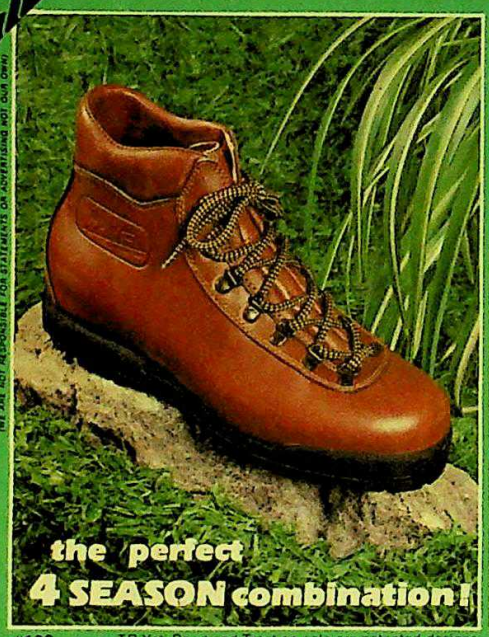
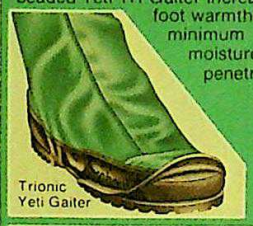
the TRIONIC REVOLUTION . . .
bringing you the footwear of the future TODAY !



This latest innovation in Bootwear combines the Safety, Comfort and Protection sought after by mountaineers for many, many years.

The unique patented design of the TRIONIC SOLE provides a Safety Grip Heel and grooved sole to accept the beading of the YETI TR GAITER.

The heel provides excellent grip on slopes of any angle, while the beaded Yeti TR Gaiter increases foot warmth with minimum moisture penetration.



#106 TR Yeti Rand and Traction sole are patented designs. Safety Grip Heel is a registered design.

ting edge.") Hundreds of Sierrans were involved. Enormous and continuous support came from Club staff—particularly, Karel notes, from Tim Mahoney in Washington and Doug Scott in San Francisco. Many Missouri members had been campaigning for the Irish since before the chapter was born. Among them was Bill Bates from southwestern Missouri, who also belongs to the Ozark Society. The chapter's Mark Kaiser coproduced a slide show on the Irish Wilderness. People from the other 40-some groups in the coalition also deserve special mention, said Karel, including Ed Pembleton, a native Missourian on the staff of Audubon's Midwest office, for whom the Irish has been a major issue; Ed Stegner, executive secretary of the Conservation Federation of Missouri, the largest environmental group in the state; Dave Brower of Friends of the Earth, currently a Director of the Sierra Club; Charlie Watson from the Bureau of Land Management, who in 1967 was transferred from Nevada to Missouri, where he worked closely with the Club in appraising the Irish Wilderness; and Jim Berlin, who as supervisor of the Mark Twain National Forest in 1969 ended all timber sales in the Irish after an official request from the Conservation Federation that a wilderness area be established in the forest.

Finally, two Ozark Chapter volunteers who put in long, grueling hours at the Missouri Wilderness Coalition's command post have already been mentioned in this account: John Karel, who chairs the Sierra Club's National Wilderness Committee and heads the state park system in Missouri; and Greg Iffrig, who was honored at the chapter's annual dinner last November as the Outstanding Sierran of the Year for his "tireless effort on behalf of the Irish Wilderness."

SIERRA CLUB ANNUAL DINNER

The Sierra Club held its annual dinner on Saturday, May 5, in a spacious ballroom of the Sheraton-Palace Hotel in downtown San Francisco. Some 460 people gathered for the festivities, the culmination of a week of Club meetings and activities.

The yearly event is a chance "to celebrate being part of the Sierra Club," according to John Holtzclaw, chair of this year's Annual Dinner Committee. "Club members come together to have a good time and to fete the outgoing President," in this case Denny Shaffer, President for two consecutive terms.

Entertainer Lee Stetson, an actor who performs as John Muir throughout the Northwest, helped sustain the high-spirited atmosphere by gruffly censuring electrical companies for damming the rivers, and ad-

Stable leg configuration

Fits in handy bag

The MSR Firefly Stove is uniquely designed to give you what you need in a backpacking and climbing stove: compactness, light weight and dependability. Sturdy, non-rusting stainless steel, brass and aluminum are the materials used in the durable Firefly, that features a flexible, insulated fuel line. Pump and storage bottle become the fuel tank. Fully adjustable from roar to simmer, it burns white gas, and has an efficient windscreen and stable leg configuration. The optional hanging system safely suspends the Firefly for greater versatility.

stock grazing. Much of this land has lon been subjected to excessive and improper grazing practices, which have resulted in the destruction of wildlife habitat, severe so erosion, declining water quality, and deteri orated range conditions.

On May 9 the Sierra Club joined in lawsuit against the BLM in an effort t overturn new regulations that allow th agency to transfer control of these range lands to private ranchers through long-tern "cooperative management agreements. The suit charges that the new policy violate the federal government's obligation to regu late private livestock grazing on the publi lands, that it will insulate livestock owner from BLM oversight, and that it will hampe the public's legal right to participate in rang management decisions.

The lawsuit was filed by the Natural Re sources Defense Council; in addition to th Sierra Club, the coplaintiffs include Th Wilderness Society, Defenders of Wildlife and the Animal Defense Council.

Clean Air Runs Afoul in House; Acid Rain Protest Grows

Visions of a reauthorized Clean Air Act this year were smogged in on May 2 when the House Energy Subcommittee on Health & Environment voted 10-9 to strike all acid rair provisions from the draft legislation. Sub committee Chair Henry Waxman (D-Cal if.), an author of many of the provisions, saic that chances for passage of a new bill in this Congress are "remote."

The House defeat gives added impetus tc the acid rain postcard campaign organizec by the Sierra Club, Friends of the Earth, the National Audubon Society, the Nationa Wildlife Federation, and the National Clear Air Coalition. Thousands of the postcards which appeared in the May/June *Sierra* anc which are also in this issue, have already been collected and will be used to demon strate to Congress, the President, and the EPA the extent of public support for contro of acid rain. The groups have pledged tc continue their campaign until Congres passes and the President signs adequate acid-rain legislation.

"The acid rain postcard campaign is the key to our strategy of establishing that acic rain is a national problem," said Sierra Club President Michele Perrault. "The American people know it, but the politicians won' believe it. Our postcards will prove it, just a our petition drive laid the groundwork fo James Watt's departure." □

Sierra magazine

The commission will conduct at least three public hearings, two of them in North Dakota, providing environmentalists an opportunity to speak out on the project. "We are greatly encouraged by the compromise, which represents a good deal of flexibility on both sides," said Jim MacInnes, the Sierra Club's Dacotah Chapter Chair. "While not a final victory, it certainly offers a significant opportunity to reach a better solution."

Congress Reaps Sodbuster Legislation

Each year, every acre of cropland in America loses an average of 14 tons of topsoil. Over the last few years, awareness of the severity of soil erosion has moved from the agricultural heartland to the halls of Congress, where both the House and the Senate have now taken the first steps toward instituting a federal program to promote soil conservation.

Passed by the Senate last November, legislation that would discourage farmers from converting fragile, erodible land to row-crop production was approved by the House on May 8. Known as the "sodbuster" bill, the measure would cut off federal price supports, loans, disaster payments, and crop insurance for all crops planted on erosion-prone land. Representative Ed Jones (D-Tenn.) noted that the legislation does not prohibit sodbusting, or cultivating fragile lands. "It in no way dictates to farmers what they can or cannot do with their land," said Jones. "This bill simply denies subsidies to farmers who engage in this practice."

The Sierra Club has worked for passage of the sodbuster bill for several years. "The basis for all wealth in agriculture rests in the soil resources that the United States is blessed with in abundance," said Bob Warrick, who chairs the Club's Agricultural Soil & Water Conservation Campaign Steering Committee. "If those resources are allowed to be wasted, abused, and washed away, that wealth will be gone forever. A first step is to see that federal benefits do not go to those who mistreat the soil, and we are pleased that this has been recognized by Congress."

Environmentalists Sue Over Grazing Policy

Nearly 170 million acres of public lands throughout the United States are administered by the Bureau of Land Management (BLM) and made available for private live-

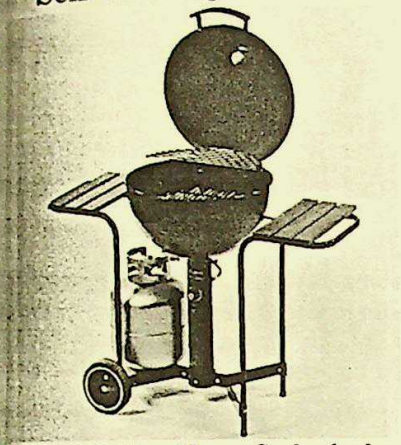
Self-cleaning barbecue



The Self-Clean Happy Cooker barbecue is used the same way as any standard gas grill, except for turning on the self-clean setting for a few minutes before cooking and again after cooking. The key is precisely-controlled interior heat, and according to the company, no other grill has this capability. When cooking on the proper heat settings, this unit does not use materially more LP gas, says the company. Other features include push-button matchless lighting and a color-coded heat gauge.—**UNR Home Products, Div. UNR Industries, Inc.**, P.O. Box 429, Paris, IL 61944. Phone: (217) 465-5361.

Waring attributes the smokers' gain in popularity in part to the limitations of standard braziers. "The types of meat that can be cooked on a standard grill are limited, they are less efficient from a heat standpoint, and flavor isn't as full as with a smoker." He adds, "With prices on low-end braziers up to $15 and $18, people are more willing to go whole hog for a $39 smoker."

Neosho, a division of Sunbeam, will continue to offer two models of limited to a smaller capacity unit, since a larger capacity grill would require a 220-volt outlet, which most patios don't have."

While it has several models of gas grills, Metals Engineering Corp. continues to put a major thrust behind its charcoal line of grills. The Swinger line ... business, price ... tail, suppleme ... promotional u ... to $29.

BUG KILLER

The Web is an electric bug killer, new from Weber-Stephen, Arlington Heights, IL.

The product uses a special attraction bulb and killer grid to eliminate mosquitoes, wasps, moths and other airborne bugs, according to the company. It uses 30 watts of power and is harmless for children, pets, birds, honeybees, pollinating insects and the environment, Weber states. Made of heavy gauge steel, the *WEB* comes completely assembled and ready to hang. Options include a kit for upright post mounting, wall brackets and a two-bulb unit for oversize backyards. It will appear at retail in early spring.

The charcoal briquettes are supported in the grill by the base or a grid having a ribbed structure on the surface whose spacing is less than the size of the briquettes so that the latter are held up enough for air to circulate beneath the charcoal. A pan like unit is open on the upper side, with vertical walls extending up from the edges of the base plate. The grill grid rests on the upper edges of the pan and extends over the open ends. A rake has a rod-like member which extends loosely through an opening on one of the vertical walls and has a handle at one end extending outwards. The head of the rod extends at right angles from the end of the shaft into the unit. 6.12.73 as 360745. A47j 37/07.
